

THE QUALITY LEARNING AND TEACHING CAMPAIGN

In the State of the Nation Address presented to the Joint sitting of Parliament in Cape Town on the 3rd June 2009, the President of the Republic of South Africa, Mr JG Zuma, stated that *'...Education will be a key priority for the next five years. We want our teachers, learners, and parents to work together with government to turn our schools into thriving centres of excellence...'*

The President further stated *'... We reiterate our non-negotiables. Teachers should be in school class, on time, teaching, with no neglect of duty and no abuse of pupils! The children should be in class, on time, learning, be respectful of their teachers and each other, and do their homework...'*

On Friday, 11 August 2008, the Government launched a health and education campaign at Walter Sisulu Square in Kliptown. This campaign arises from the recognition that health and education should be at the centre of the Government's social transformation programme for the next five years.

On the education front, the campaign calls on all individuals and organisations to assume responsibility for improving the quality of education. The education elements of the campaign will:

- Inform citizens about the importance of education, and their roles, responsibilities and obligations towards education;
- Mobilize communities to monitor and support schools, teachers and learners;
- Improve the quality of education for all children, especially the poor, and to demonstrate this improved quality through better learner achievements;

The achievement of quality education for all depends on the actions of members of parliament, basic education ministry, provincial members of executive councils, department officials, school principals, teachers, students, parents, school governors and community members.

Each of these role-players are called upon to make a commitment to a 'Code for Quality Education', which describes the responsibilities and discipline required of them. If all sections of society work together - government, communities, health care workers, civil society, business, media and other sectors - we can ensure that all learners benefit from quality education. Campaign coordinating structures are being set up at national, provincial, regional, local and school levels and Government now calls on all South Africans to join us in this campaign, as part of the ongoing effort to achieve a better life for all.
